***Reasons for allowance***

1. Claims 52-71 are allowed and renumbered as claims 1-20.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the recited strapping further including about 97.2-99.8% by weight polyester; and about 0.2-2.8% by weight of one or more polyolefins selected from the group consisting of linear low density polyethylene, branched low density polyethylene, a high density polyethylene, polypropylene, and combinations thereof; wherein the polyolefin is chemically unmodified or non-reactive and causes the strapping to have increased resistance to splitting in the longitudinal direction.

The prior art of record does not teach or suggest the recited strapping further including about 97.2-99.8% by weight polyester selected from the group consisting of polyethylene terephthalate, polybutylene terephthalate, polyethylene naphthalate, polyethylene isophthalate, and combination thereof; and about 0.2-2.8% by weight of one or more polyolefins selected from the group consisting of linear low density polyethylene, polypropylene, and combinations thereof; wherein the polyolefin is non-reactive and causes the strapping to have increased resistance to splitting in the longitudinal direction.

Additionally, the submitted Declaration of Dr. Patrick Rigney, filed May 20, 2009, has been considered and shows that mixing the claimed unmodified polyolefins into the polyester in the claimed amounts (about 0.2-2.8% by weight) increases the resistance of the polyester strapping to longitudinal splitting and reduces or eliminates the

Art Unit: 1794

incidences of longitudinal splitting during strap tensioning while maintaining acceptable weld strength (page 3, section 5 and Tables 1-2 of the Declaration), which was not contemplated by the prior art of record.

The prior art does not teach motivation or suggestion for modification to make the invention as instantly claimed.

Any comments considered by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence Ferguson whose telephone number is 571-272-1522. The examiner can normally be reached on Monday through Friday 9:00 AM – 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Sample, can be reached on 571-272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
